PROFESSIONAL EXPERIENCE

Vertexa Digital Solutions – Founder & CEO   *Nov 2025 – Present*
Remote–Rashaya, Lebanon

- Establishing and managing a digital solutions agency specializing in web development, UX/UI design, SEO, and branding..
- Lead full-stack web projects from concept to deployment, including responsive websites and e-commerce solutions.
- Oversee technical architecture, code quality, and platform performance.

Connect Services SARL – Software Developer   *Nov 2025 – Present*
On-Site– Dahr-Al Ahmar, Lebanon

- Designed and developed the official ConnectServices SARL company website, showcasing services and portfolio with a modern, responsive design using React.
- Build and maintain high-quality, performance-optimized websites for a wide range of business clients.
- Collaborate with a graphic designer to transform visual concepts and brand identities into functional, user-centered web experiences.
- Develop full-stack solutions using modern technologies, ensuring scalability, security, and seamless user interaction.
- Create intuitive UI/UX designs that prioritize accessibility, aesthetics, and responsiveness across all devices.

OctoVertex – Web Developer Intern   *Dec 2024 – May 2025*
Remote – Beirut, Lebanon

- Engage with clients to gather requirements and deliver tailored technical solutions.
- Collaborate with UI/UX designers to transform concepts into intuitive, visually appealing interfaces.
- Build responsive web applications using React, WordPress, and PHP.

The Pixel Company – Junior Frontend Developer   *Aug 2024 – Oct 2024*
Remote – Cairo, Egypt

- Collaborated with clients under NDA to gather requirements, clarify their vision, and deliver tailored technical solutions.
- Partnered closely with UI/UX designers, transforming protected design concepts into functional, polished interfaces.
- Built responsive web applications using React and occasional vanilla JavaScript for advanced interactivity, ensuring compatibility across devices.

YAFA Cloud Services LLC – React Developer Intern   *Apr 2024 – Jun 2024*
Remote – Dubai, United Arab Emirates

- Collaborated closely with another frontend intern to design and develop the startup's new website, personally creating the UI/UX designs in Figma and implementing key features using React.js, TypeScript, and Material UI.
- Coordinated with the backend developer (Python) to integrate APIs and ensure smooth communication between frontend and backend systems.
- Applied responsive design principles to deliver a consistent, user-friendly experience across all devices and screen sizes.
- Participated in Agile workflows and code reviews, contributing to a clean, maintainable codebase.
- Took ownership of multiple critical frontend components, ensuring the website aligned with the startup's vision and high standards for functionality and performance.
